EDUCATION

Faculty of Engineering, Ain Shams University Credit Hours, 09/2018 – 06/2023
Bachelor Degree of Computer Engineering and Software Systems
Saint Fatima School, IGCSE High School Diploma 06/2015 – 06/2018

PROJECTS

ENE (Ejada Notification Engine):

Developed a Management Notification Engine Dashboard, Using React Tanstack , React Query for the Api , and the Routing was done using React Router. The styling is made by Tailwind CSS and shadnCN, EDS Library

EDS (Ejada Design System Library):

Designing The company's Library for React Components using ShanCN Components , vite , tailwind css, React Tanstack Table , and Documenting it using React Storybook

Ejada Limited Software Company's Website

Developed a dynamic SVG map using JavaScript, enhanced UI with HTML and CSS for forms and cards , and injecting them in Liferay

ELMS (Ejada Loyalty Management Systems)

revamping Management System for both Admin and users Dashboards, Using React Tanstack for both Table Component and Query for the Api , and the Routing was done using React Router. The styling is made by Tailwind CSS and shadnCN

Auto Spare Ecommerce

Developed a Full Ecommerce, using Firebase for storing data, and Authentication, I used Bootstrap for the Styling and Redux for the State Management

Fusion Dasboard

Developed a Dashboard that supports MuliLanguage (english/arabic) also Supports rtl & ltr ,and supports light and dark mode , with the help of Clerk O'Auth for Authentication ,combining all of that using tailwind css , redux , shadcn

Monphell Ecommerce:

Developed using Shopify an Ecommerce for Local Brand in Bulgaria with the help of Shopify Api for the Backend

Fitness Pro Gym

Enhanced some UI Features for a published Shopify Ecommerce
